Virtual Trainings
FROM BORING TO SOARING

Is your team experiencing Zoom burnout?

Are people multitasking? Leaving their cameras off?

Do you miss people talking & laughing during meetings?

Give your teams the most **CREATIVE, ROBUST, INTERACTIVE** experience out there.

TURN VIRTUAL INTO YOUR BEST ADVANTAGE

Delete Zoom Fatigue

Remember when your meetings left everyone fired up? Virtual options just aren't the same. There is a lack of energy. People multitask and are easily distracted. The retention rate of new information is declining rapidly! And all of this is affecting your bottom line.

It's time to do something different!

Imagine your team in that same virtual setting, empowered to conquer any challenges that arise with innovative solutions they craft together. You can unlock this potential by teaching them to apply the principles of improv: flexibility, creativity, and collaboration.

Utilizing improv-style games and optimizing the features of Zoom and Microsoft Teams, Jon Colby has inspired organizations across the world to create meetings that are fun, engaging, and impactful.

He's so confident that organizations will reap immediate benefits, that he guarantees satisfaction.

So, what do you have to lose? Put on a professional shirt, turn on your camera, and get ready to learn how virtual can be one of your best advantages, if you have the right tools.

> " The hour went by quickly... a good sign of being in FLOW! ...you demonstrated many different techniques and tools to use in the Zoom environment. You are REALLY GOOD at what you do and it shows. "
